Hi Kacee, that is indeed the current factsheet. Here are a couple other points (the first sentence in bullet 2 is probably the biggie):

-
-
-

Deliberative Process / Ex. 5

As part of the I'll also note that OAR participated in the Agency review. OTAQ and OAQPS participated in the Step 2 Agency review back in 2012, and a separate briefing for OAQPS was provided in Aug 2012. OAR didn't provide any comments in the Step 6 Agency review that was conducted this summer prior to final posting.

I'm going to try and give you a quick call at 9:30.

Thanks All! Maureen just shared with me the factsheet that she had on file (attached). If this is the most current, then I think this probably provides all of the needed information.

To avoid duplication of effort, I am asking that Lou D'Amico be NCEA's point of contact in providing materials for Tom Burke's briefing this morning with the Administrator on the ammonia IRIS assessment. Most of the information I think Tom needs has already been produced. I will call the Ag advisor this morning.

Expanding the group so we can get the needed info to Tom this morning. Can someone please send either a plain language factsheet or a desk statement about the ammonia assessment? Need the information by 10:00 a.m. so Tom can review in advance of his meeting with the Administrator. See below for the full email chain for the specific questions the Administrator has asked (history of the assessment and implications for decision-making).

Here's the info Tom included in his weekly report to the Administrator:

Deliberative Process / Ex. 5

See below. Sorry for the Sunday night request but could you get me some background and implication bullets for my meeting with Gina at 11:30. I assume you have these from the update meetings with Matt Fritz.

Tom can we talk about the final IRIS Risk assessment for ammonia when we meet tomorrow? I haven't heard anything about it and I am not familiar with the history, results of any immediate implications of the assessment.
